EDUCATION

BROWN UNIVERSITY: Providence, RI
Bachelor of Science in Computer Science and Entrepreneurship | May 2026
Clubs/Activities: Brown Technology Consulting Group • Fintech • CS Department Undergraduate Group

ALVIRNE HIGH SCHOOL: Hudson, NH
Valedictorian (Rank #1) | August 2018 – June 2022.

EXPERIENCE

INCOMING…

JUNIOR ASSOCIATE, BROWN TECHNOLOGY CONSULTING GROUP: Providence, RI Sept 2023 – Sept 2024

- Conducted market research and competitor analysis to evaluate influencer-brand partnership trends and identify strategic opportunities for Amba, an early-stage startup
- Developed business models and financial projections with a team of 6 for Amba's go-to-market strategy
- Presented insights and recommendations to the founders, contributing to product positioning and early growth

SOFTWARE ENGINEER INTERN, UNH INTEROPERABILITY LAB: Remote July 2021 – Aug 2021

- 1 of 8 interns selected from across the United States for the 6-week summer internship focused on industry-leading software/hardware testing services.
- Implemented the customer's API and create a REST API server using Node.js/JavaScript, Python, Postman, and Swagger that automates the software testing process using Agile software development methodology and Git.
- Presented application demos weekly to SaaS clients and demonstrated how the automation software could be integrated into their company's software-testing workflow—increased testing efficiency two-fold.

SENIOR MENTOR, BAE SYSTEMS FOCUS ROBOTICS PROGRAM: Nashua, NH Sept 2018 – Mar 2020

- Directed a group of high school students to brainstorm, build, and program a VEX robot to compete against 5 other teams.
- Pitched the functionality and design of the robot to BAE Systems engineers and technical professionals for the competition.
- Set goals and milestones to prioritize both software and hardware aspects of the robot to reach deadlines.

PROJECTS

EDUQUETTE – ANDROID OS FLASHCARD APP

- Used Android Studio and Java to develop a mobile app that allows users to traverse through flashcard decks (random or alphabetical order) for various subject areas (English vocabulary, biology, chemistry, Spanish, etc.).
- Designed multiple flashcard views, comprehensive login screen, and beginner friendly home page.

CAMPFIRE QUESTIONS – HACK@BROWN 2023

- Utilized JavaScript, HTML, CSS, and ChatGPT API to build a platform that allowed students to ask questions online during a live lecture/class—automatically sorted the queries using AI.
